

Disciplined Agile Scrum Master (DASM) Certification

Disciplined Agile Scrum Master (DASM) Certification

ACCELERATE YOUR TEAM'S PERFORMANCE WITH DASM

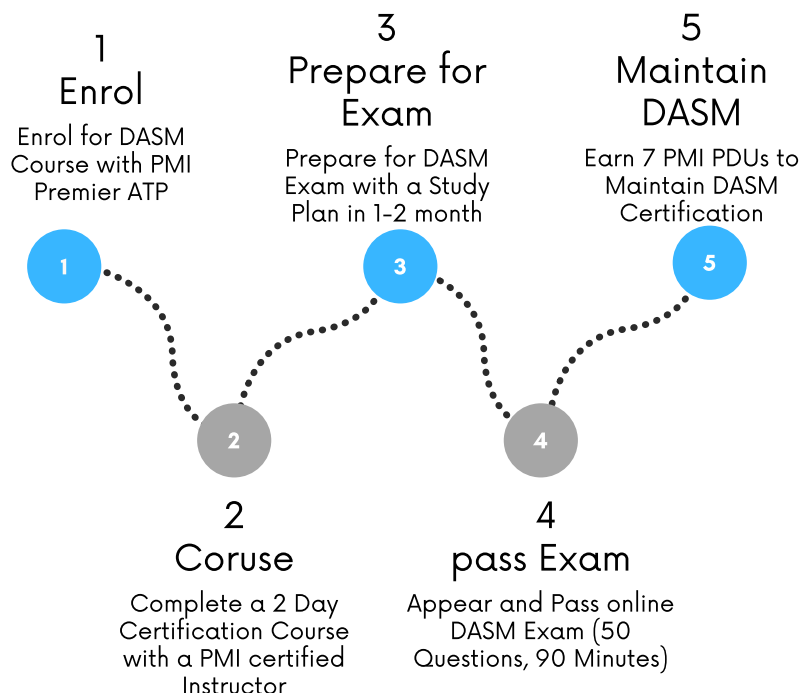

OVERVIEW

Disciplined Agile Scrum Master (DASM) is a 2-day instructor-led course that teaches you how to use Disciplined Agile (DA) to improve your way of working and deliver results for your organization.

You will become familiar with foundational agile and lean practices, and the DA tool kit—a comprehensive library of practices and strategies with fit-for-context advice on the advantages and disadvantages of each—to solve your delivery challenges.

Disciplined Agile frees you from any single agile framework or approach by introducing you to over 1,000 proven practices from frameworks, including Scrum, Kanban, SAFe®, XP, and many more.

Certification Journey

DASM Certification

Graduates

Developers and
Testers

Business Analysts

COURSE PREREQUISITES

- The DASM course is open to anyone; however, it is particularly relevant to students with a background in agile and Scrum.
- If you do not have an agile background, we suggest you read the **14-page Scrum Guide** written by Jeff Sutherland and Ken Schwaber before attending the class.

CERTIFICATION TRAINING AND EXAM

- 2- Days Training with PMI Certified Instructors (14 PDUs)
- Your exam fee is included in your tuition, and information on scheduling your exam is provided by PMI approximately 2 business days after the workshop.
- You have 30 days to take the exam online after your training is complete.
- PMI will send you an email confirming your test is available.
- Certification is granted after you pass the exam.

Frequently Asked Questions

Q: What pre-work is required for the DASM exam?

While there is no prerequisite for the DASM course, we do recommend optional pre-work to get the most value out of the training, testing, and overall experience, including:

- Familiarity with common agile concepts and terminology
- Review Choose Your WoW's key areas that address learning objectives
- Take notes during the training workshop and review the workbook
- Organize a virtual study group to confirm understanding of processes, application, and concepts addressed in training

Q: What is the format of the DASM exam?

The DASM exam is administered through Pearson VUE. The exam is an online, non-proctored test including 50 multiple-choice questions. The total exam appointment is 120 minutes—30 minutes for the introduction, tutorial, and survey and up to 90 minutes for completing the exam.

Q: How long does the student have from the training workshop to take the DASM exam?

Students will have 60 days from the time they receive the exam link to take the exam. They may retake it two more times within that 60-day period if they do not pass the first attempt. However, there is a \$150 exam retake fee. Students can pay this fee directly via my PMI dashboard. Upon payment, you can access the link to retake the exam. They no longer need to email us to request a retake.

Does a DASM certification expire?

Yes, a DASM certification is good for one year. To renew the certification, you must earn 7 PDUs in agile topics and pay the \$50 renewal fee. Active PMI members can renew at the reduced price of \$20 per year.

What should I do if I have more questions?

Please contact us at support@pmtrainingschool.com with any questions you may have.
